KAISER

Kaiser Magazine is an artistic tribute to the human body. We showcase lingerie, swimwear and art nude editorials. Creative minds, photographers and artists are invited to bring the beauty of the human body central again, far from censorship and social networks' restrictions.

We thrive to provide an embodiment of culture, through artistic, sensual and conceptual portraits of the female and male body.

We take inspiration from the beauty of the bare human form and we appreciate the enduring strength of human sexuality. We do not accept pornography, nor cruelty.

Kaiser Magazine was established in late 2019 by lingerie Art director and Photographer Alberto Maccani, to create a platform for creative teams with an interest in boudoir and fine art nude photography. It is a space to express ideas free of commercial needs or censorship.
